## **Memorial Event for Senator Carl Levin**

In the weeks since the passing of Senator Carl Levin, there has been a tremendous outpouring of loving memories and tributes about Carl and the impact he's had on us as individuals, Michiganders and Americans. These testimonials have been a great comfort to the Levin Family and to so many of us who mourn his loss.

While we had expected to announce a date and location for a public memorial by now, the resurgence of Covid-19 has forced us to delay the event. We will continue to monitor developments and public health guidance with the hope of announcing memorial details in the near future. Although it is disappointing to have to postpone, we think it is worth waiting to create an in-person event that honors Carl's legacy of bringing people together.

Meanwhile, we hope everyone will continue to send their memories, stories, and photos to [Levin.Family@wayne.edu](mailto:Levin.Family@wayne.edu). We also invite you to record and provide us a short video about your interaction with Carl or how he had an impact on you or your community, along with any social media posts that you would like to share. As we all wait out this next Covid-19 surge, our team will assemble some of these recollections and photos into a montage to be shown at the memorial.

Thank you for your patience and understanding in this challenging time, and we look forward to gathering as soon as possible.
